

# Learning at Home Maths

- ★ Have a go at creating a 'My Life' timeline about your life with an adult.  
You could draw pictures, use photographs and sentences.
- ★ You could include things like:
  - When you were born
  - holidays
  - your first day at school
  - special occasions
  - achievements
- ★ Put the events in chronological (time) order.

Perhaps you could share this with your classmates too.
